

First Time Visitors

We love the opportunity God has given us to minister to your children here at Cornerstone, we know that Jesus values your children and so do we! That's why we are committed to partnering with parents to teach their children about the God of the Bible and how deep His love is for them.

Listed below is some important information for first time visitors:

When should I arrive?

We encourage parents to arrive at least 15 minutes early on your first day with us. This gives you enough time to register your child[ren] and even take a tour of the classes if you'd like!

What is the check in/out process?

Because the safety of the children is of first importance, all children must be checked in and out of their classrooms by their parent, legal guardian or adult (18 years of age or older) they attended church with.

New families complete a short, electronic registration form. Once registered, the parent and child[ren] will receive a printed name tag and corresponding "guardian receipt" upon check in. The guardian must present the "guardian receipt" to a Children's Ministry volunteer at checkout. These measures help us appropriately care for your child and assure that they are only released to the adult who checked them in, or someone designated on the registration form.
